

Secure email for Financial Services

**You've received
a secure email**

Unlock

IT STARTS WITH AN EMAIL

Make sure it's seen by only the right people

Unipass Mailock frees you from open-risk email, with AES-256 encryption and 2-factor human error prevention

2-FACTOR AUTHENTICATION

Two challenge flows – limit access to the right people.

SMS

Send a one-time code to your recipient's mobile phone or tablet.

Q&A

Ask your recipient a question with an answer only they could know.

IDENTITY SECURE

Digital Recorded Delivery

Discover your end-to-end encrypted, fully auditable customer email thread. Unipass Mailock sends confidential messages and attachments easily and securely.

It's business as usual, encrypted. Keep sensitive data secure.

Compose

Read and write using your usual email client. Add into Outlook, use on the web, or deploy to your server.

Challenge

Ensure the right people open your emails - set 2-factor challenges and use Unipass Identity to authenticate recipients.

Encrypt

Send emails and attachments with end-to-end AES-256 encryption. Not even we could read them if we tried.

Trace

Trace every message. Know when your emails get read and follow up with recipients at the right time.

Revoke

Recall an email any time after you've sent it, even if it's been read - your recipient will lose retrieval access.

Engage

Empower your customers with a secure email thread directly to your business. Recipients reply for free.

TESTIMONIAL

"Unipass Mailock has addressed every issue/anomaly which existed previously, superb IT and Helpdesk support."

John McGlynn, Royal London

WHY USE UNIPASS MAILOCK? UNIPASS MAILOCK HELPS YOU...

Know your customer

Digitise friction-inducing KYC, anti-money laundering, and ID verification processes.

Strengthen your brand

WHY UNIPASS MAILOCK? SECURE EMAIL HELPS BUSINESSES...

Meet ESG Goals

Companies with a strong environmental, social, and governance proposition achieve higher equity returns and reductions in bottom-line risk.

Save logistics costs

The financial services industry alone could save up to £1.3bn by reducing its paper output, as well as providing "huge environmental benefits."

Reduce data risk

Emails sent to the wrong person are the #1 cause of data exposure. Don't let colleagues or clients lose sleep over inadvertent data loss.

ABOUT ORIGO

At the forefront of FinTech since 1989, our mission is to be the **Fintech supplier of choice** to connect the financial services marketplace for the benefit of everyone.

Unipass by Origo is a brand **trusted by over 40,000** UK financial advisers as well as product providers, platforms and software suppliers every day, to help them securely conduct business easily and efficiently.

We partnered with Beyond Encryption to bring you **Unipass Maillock** and **Unipass Maillock Automated Edition**, which were **designed specifically for the UK financial services industry**. It combines our industry-wide identification service **Unipass Identity** with the market-leading secure email solution, Maillock.
